CAREER OBJECTIVES

I enjoy turning ideas into functional, real-world applications and thrive on building software that makes a meaningful impact. I specialize in building robust, user-centric applications using HTML, CSS, JavaScript, and React. I also have experience with Node.js and Express.js for backend development, along with expertise in MongoDB and MySQL for designing efficient, reliable systems. I'm committed to continuous learning and delivering high-quality, maintainable code that enhances user experience.
